ABOUT NGE

In France and around the world, the teams of NGE serve communities, regions and countries by designing, constructing and refurbishing infrastructures and buildings. The expertise and team working skills of the Group's **11,000 men and women** give them the confidence to embrace and anticipate the changing nature of the jobs they do, and work closely with their customers. Reporting annual revenue of **€2 billion**, NGE is an independent French civil engineering company involved in the construction of major infrastructure projects, urban development programmes and local development schemes.

INCLUSION / TRAINING / JOBS

NGE prioritises the hiring of local personnel to consolidate its local presence and deliver on its commitment to skills transfer. Its in-house training school and dedicated training centres can be brought in to design bespoke training programmes for every project.

A FRENCH-CERTIFIED GROUP

AFAQ Quality, Safety and Environment certification of compliance with ISO 9001, OHSAS 18001 and ISO 14001.

> **Quality:** At NGE, continual performance improvement and the Group QSE policy defined via its Integrated QSE Management System are decisive contributors to the success of the company and a major factor for its long-term future.

> **Safety:** We make every day a safety day. Protecting the health and safety of every employee is an uncompromising everyday requirement throughout the company. Leadership by example and the involvement of every individual are what allow our teams to work in complete safety on every site.

> **Environment:** NGE conducts business on the basis of respecting the environment and all its stakeholders (employees, partners and customers) for the benefit of current and future generations.

FINANCIAL ENGINEERING

NGE positions itself as a facilitator of turnkey industrial and financial services. We can provide funding for public-private partnerships in the form of concessions, public service outsourcing contracts and partnership agreements. We can act as consortium lead contractors or consortium partners.

INNOVATION

Innovation and R&D are central to the strategy and growth of NGE, both of which are greatly facilitated by its decentralised management model, which encourages grassroots ideas and initiatives as sources of innovation.

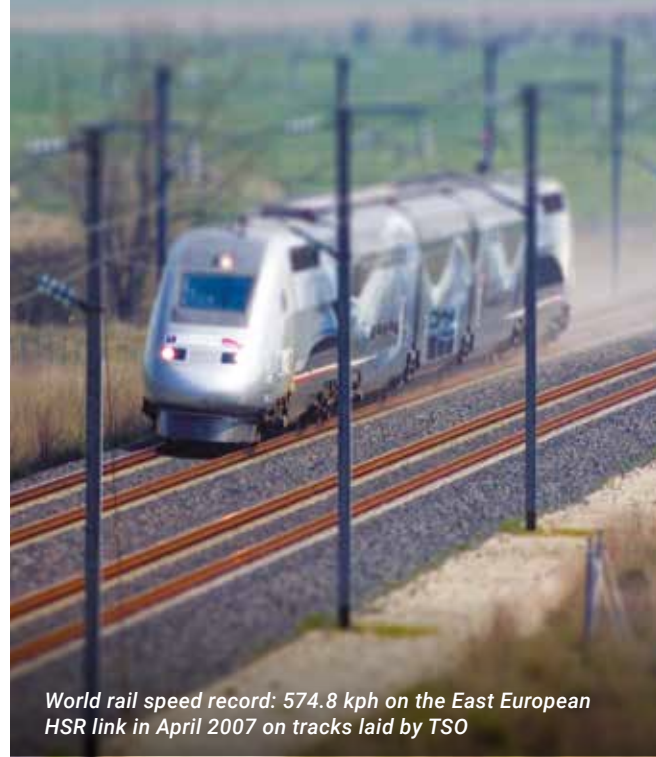

At NGE, innovation is not only technical, but also organisational: its in-house design offices develop special machinery and products for individual projects. NGE holds 26 registered patents.

ETHICAL BEHAVIOUR

NGE has always upheld environmental and social values, but joining the UN Global Compact has brought a new dimension to its commitments: ethical behaviour. NGE is committed to implementing best practices to ensure ethical conduct.
