

## NOMINATION

**The NGE Group,  
in consortium with Webuild and Equans France  
for the second design-build contract of Line 15 West;  
appoints Anne Bocquet  
to lead the largest design-build project  
in the Group's history.**

**The NGE Group, the fourth largest construction group in France, in a consortium with Webuild and Equans France, confirms Anne Bocquet as project director to oversee the execution of the design-build contract for Lot 2 of Line 15, Western section of the Grand Paris Express. NGE is the lead contractor for this €1.38 billion project.**

A graduate of the École Polytechnique, Anne Bocquet has over 27 years of experience in managing complex projects in public interest sectors such as shipbuilding, civil nuclear engineering, and transportation infrastructure engineering.

Anne Bocquet began her career in the defense sector, spending 12 years at Naval Group where she worked on submarine and reactor test construction projects, eventually becoming the Director of Operations. She then joined AREVA from 2009 to 2013 in the Risk & Opportunity department before moving to Ingerop, an engineering and construction consultancy firm, in 2013 as Project Director. There, she participated in the studies for the CIGEO project and the management of the infrastructure for Line 17 of the Grand Paris Express, where she first encountered the NGE teams on Lot 2.

**Anne Bocquet joined the NGE Group in September 2023 and became part of the team responsible for responding to the design-build tender for Lot 2 of Line 15, Western section of the Grand Paris Express, in partnership with Webuild, Equans France, as well as the architectural firms AIA Life Designers, Dubuisson Architecture, and Richez Associés.**

Her career, focused on major new construction projects, allows her to now lead an infrastructure project on the longest metro line in France, from the design phase to commissioning.

*« I have always wanted to serve projects for the State, which we could call today the 'common good,' driven by a sincere motivation to contribute positively to society. This ambition has guided my entire career, particularly in the choice of sectors I have worked in and the projects I have served. It fuels the enthusiasm and determination that characterize me. Securing this project is a great milestone for NGE and Webuild, and I am happy to contribute to it, with the support of my team, as Consortium Director, to facilitate decarbonized travel between suburbs. » Anne Bocquet*

### **À propos de NGE**

The fourth largest construction group in France, NGE – New Generations of Entrepreneurs – builds major infrastructure and urban or local projects. With its expertise in financing, design, construction, and maintenance, the Group has become a leading player in creating works that address the economic and ecological challenges of regions. Its entrepreneurial drive is supported by strong employee shareholding (the founders, management, and employees hold 72% of the Group's capital), bolstered by the French investment fund Montefiore (28% of the capital). With a turnover of 4 billion euros, NGE is present in 17 countries and supports private and public clients in financing, designing, and executing their transition projects in the fields of water, mobility, urban renovations, energy, and telecommunications. Its 23,000 employees are proud to contribute to the construction of works that meet significant environmental or societal challenges.
